Accessibility Statement

Jax Kitchen — jax-kitchen.com

April 2026

Our Commitment

Jax Kitchen is committed to ensuring digital accessibility for people with disabilities. We continually improve the user experience for everyone and apply relevant accessibility standards.

Conformance Status

Jax Kitchen (jax-kitchen.com) is partially conformant with WCAG 2.1 Level AA. Partial conformance means that some parts of the content do not fully conform to the accessibility standard due to platform limitations.

What We Have Done

We have made the following accessibility improvements to this website:

- Color contrast — All orange and red text that previously failed WCAG contrast requirements has been adjusted to meet the 4.5:1 minimum ratio required for normal text
- Keyboard navigation — All interactive elements display visible focus indicators when navigated by keyboard
- Skip navigation — A skip link allows keyboard users to bypass navigation and go directly to page content
- Page structure — Landmark regions (header, navigation, main content, footer) have been added to assist screen reader users
- Navigation — Broken links have been removed; all navigation links lead to valid pages
- Images — Alternative text has been added to images throughout the site
- Touch targets — Navigation links meet the minimum 44×44 pixel touch target size for mobile users
- Motion — Animations respect the user's "reduce motion" system preference

- High contrast — The site supports Windows High Contrast mode

Known Limitations

Due to constraints of the Weebly website platform, the following issues currently cannot be fully resolved without a platform change:

- Page headings — The page editor does not allow setting heading levels. Page titles are currently marked as Heading 2 rather than Heading 1. We are aware of this limitation.
- PDF download labels — File download buttons display generic "Download File" text. The file names are displayed adjacent to the buttons to provide context.
- Map embed — The embedded Google Maps frame does not currently have a descriptive title attribute due to platform restrictions. We recommend users visit Google Maps directly at maps.google.com to find our location at 1850 Emerson St, Jacksonville FL 32207.

Technical Specifications

This website relies on the following technologies for conformance: HTML, CSS. The following technologies are used for enhancement only and are not relied upon: JavaScript (note: JavaScript execution is restricted by the hosting platform).

Feedback and Contact

We welcome your feedback on the accessibility of Jax Kitchen. If you experience accessibility barriers, please contact us:

- Phone: (904) 619-5872
- Email: cook@jax-kitchen.com
- Address: 1850 Emerson St, Jacksonville FL 32207

We aim to respond to accessibility feedback within 2 business days.

Formal Complaints

If you are not satisfied with our response, you may contact the U.S. Department of Justice ADA Information Line at 1-800-514-0301 (voice) or 1-833-610-1264 (TTY).
